

# CENTER FOR HEALTHCARE SOLUTIONS

Talking about making improvements is one thing, but actually implementing “Healthcare Resolutions” and making them withstand time is an entirely different challenge. They need to be created in an environment that supports change.

## **Make The Change!**

At the Center for Healthcare Solutions, we aim to help improve healthcare operations and quality of care across our region so people and facilities can thrive. We help you make the change by deploying crucial programs and solutions to our members that provides efficient, cost-savings results.

The 2023 Annual Healthcare Showcase will bring together more than **300 attendees, corporate partners, civic leaders and others** – all dedicated to improving healthcare. The day is a mix of exhibitors, speakers, and education sessions focused on cost savings and hot topics that are affecting all aspects of the healthcare delivery system.

The event will feature up to **14 break-out sessions** on topics such as cybersecurity, fraud, mental health, workforce, pharmacogenomics, supply chain, and much more.
